science@ltvk.lt

Aims of the conference

The aim of the conference is to promote scientific debate on current regional economic, management and technology problems, strengthen international cooperation between researchers and provoke academic and business discussions in the field of sustainable development. Representatives from other countries are welcome to participate. The work in the conference will be organized in opening plenary session, parallel sessions, and concluding plenary session.

Sessions:

- *Public Administration and Society, Human Development, Education Management, Organization Management.*
- *The Role of Tourism, Environmental Management, Economic Development, Sustainable Development*
- *The Role of Technologies and tendencies of Law*
- *Multidisciplinary - online session (this session will be held online, all topics may apply).*

Considering the pandemic situation one session in the conference will be held and streamed completely online, providing an opportunity for participation and easy access from anywhere. After the “online precipitation” is marked in the registration form, you will be provided with login details to a web conference system, through which you will be able to give presentation and participate in the conference. Same fee applies as for physical participation.

Publications of conference proceedings will also be organized. The best articles will be published in scientific *Vadyba/Journal of Management* (ISSN: 1648-7974, [ISSN 2424-399X](#) (online)). Journal is included in the Index Copernicus, CEEOL and EBSCO international databases.

All conference material will be reviewed by two reviewers before the conference. Conference languages are English, Lithuanian and Russian.
